

# Honey Bee Extractor manual

[www.dutch-headshop.com](http://www.dutch-headshop.com)

## **PLEASE READ ALL DIRECTIONS CAREFULLY**

This product is not intended for illegal use.

### DO NOT - DO NOT - DO NOT

- Do not smoke while extracting.
- Do not extract near any open flames or spark, ex: hot water tank, furnace wool sweater.
- Do not remove butane can from extractor until 30 seconds after can is empty.
- Do not directly inhale fumes.
- Do not extract indoors without well ventilated conditions.
- Do not wear loose wool sweaters or bulky clothing during extraction.

### DIRECTIONS

- Put on safety glasses.
- Dry herb to DUST then place herb in extractor loosely.
- Place filter inside of cap, screw cap back on extractor.
- Go to a well ventilated area with no open flame/smoking within 150 feet.
- Hold the single holed side up & place butane tip in, release butane through the unit. Butane sprays through unit into Pyrex tray.
- Do not remove the butane can from the extractor until 30 seconds after butane can is empty.
- Wait 24 hours and all your oil is waiting in your pyrex tray.

### YOU MUST - YOU MUST - YOU MUST

- You must provide a good source of VENTILATION.
- You must wear safety glasses.
- You must use common sense.
- You must be over 18 years of age.
